Crop Science and Biotechnology Roundtable

A Great Success!

The 4th annual Technology Roundtable was held on October 25 at NC Biotechnology Center in cooperation with the North Carolina State University (NCSU), University of North Carolina at Chapel Hill (UNC) and Duke University (Duke).

The Roundtable was attended by more than 150 local business professionals and researchers from dozens of North Carolina AgBiotech companies and higher educational institutions. The Roundtable was a great success and helped attendees learn more about some exciting new research and developments in AgBiotechnology. Participants also enjoyed ample opportunities to network and strengthen connections between industry and academia.
